Walnut, California

Summary Capable, teamwork-oriented professional with a knack for efficiently handling workloads under pressure. Currently looking for opportunities to utilize and further develop my specialization in software development.

Education

Fullerton College

Computer Science • Fullerton, CA

12/2019

A.S. in Computer Science

Cal State University, Fullerton

Computer Science • Fullerton, CA

Graduation with a B.S. in Computer Science expected in 2022.

Experience

Amazon Flex

Fulfillment Associate (Seasonal) • Chino, CA

11/2017 - 01/2018

Transporting and scanning customer goods under stress, usage of a dolly and a hand-held scanner.

FedEx Ground

Package Handler (Part-Time) • City of Industry, CA

07/2018 - 06/2020

Scan and load customer packages in a stressful, fast-paced environment. Maintain an adequate load rate while abiding by FedEx's safety conduct, as well as correcting any errors found along the way.

MVP for February of 2019

Safety Committee Member

- Discussed and implemented possible solutions to worker safety.
- Utilized critical analysis in order to find root causes to worker incompetency.
- Reported potential safety hazards that I or my teammates came into contact with.

FedEx Ground

Operations Administrator I • City of Industry, California

06/2020 - Present

This quality assurance position is responsible for package damage/loss mitigation, inspecting and handling hazmat packages, and resolving improperly labeled packages.

This position also requires independent management, clerical duties such as customer support, and reviewing damage/loss claims to report to upper management.

Projects
